Management Discussion and Analysis Report

Auto Component Industry is having high growth prospects. Indian Industry is now growing as potential Global automotive supplier with very good export potential as the developing Countries comes out of recession.

The Company has very good opportunities because of valued customers both in Domestic OEM's and Replacement Market & Exports. Because of our in-time supplies, superior quality products and our technical expertise both from Japanese & German Consultants.

The Company has got very strong distribution network at their aftermarket sales because of imports from free trade zones the competition is very stiff and price sensitive.

Outlook

The Indian Auto Component Industry is going through challenges. The company continues its drive for sustainable growth in this restrained growth in Domestic and Export automotive industry.

All the cost effective steps have been taken to meet the challenges of price competition and also quality, delivery and logistics.

Segment wise performance

We operate in two segments i.e. OEM and After Market in both domestic and exports. You will find during the year 2011-12 our sales of OEM's is 42% and After Market 40% and Exports 18% of Net Sales. You will find this is well balanced; we can meet and respond to market fluctuations.

Concern & Risks

The company has taken all the steps to mitigate the following risks:

Raw material prices : Ours is a continuous high volume manufacturing industry. Our profitability will depend on change in the price in raw materials and input costs. Foreign currency Risks: Exchange rate fluctuations may some times effect. Adequate steps taken.

Auto Industry Growth

Our Company is linked with auto industry which is very much fluctuating because of the economy and also fuel pricing and interest rates.
